WASH ROTARY ACTION GROUP

Kettie Harawa, Water for People

With over 20 years of experience in the water, sanitation, and hygiene (WASH) sector, Kettie is well qualified to speak at the [World Water Summit 16](#), on the topic of "Sanitation Flow." How understanding the "system", the environment, and business opportunities can provide improved sanitation.

WASH in the Ukraine

In war-torn Ukraine, there are some amazing stories of how Rotary clubs are bringing water, sanitation, and hygiene to this country despite the war.

District 2232 constantly works to bring clean water to communities, including fountains in air raid shelters.

Guidelines for Drinking Water

Over 1,000 people attended a webinar held by the World Health Organization (WHO) on [Guidelines for drinking water quality: small water supplies](#). These updated guidelines provide practical steps towards providing safe and sustainable drinking water. In conjunction with these guidelines, a resource for [sanitary inspection packages](#) is available.

Submit your stories, videos, and pictures for upcoming Newsletters to us at atinfo@wash-rag.org.

The WASH Rotary Action Group is pleased to consider partnerships with any corporate supporter. Due to the unique attributes of water sources and water provision, acceptance of corporate support does not imply an endorsement of any particular water technology. Rotarians, Rotary Clubs, and Rotary partners must evaluate any technology to determine if it is the best solution for the conditions where the program will be implemented. The WASH Rotary Action Group can provide guidance about where different technologies work best, but Rotarians and Rotary clubs must make the final decision about how to implement their programs.
