

GLOBAL GRANTS COMMUNITY ASSESSMENT RESULTS

Use this form to report community assessment findings to The Rotary Foundation when you apply for a global grant.

Assessing the strengths, weaknesses, needs, and assets of the community you plan to help is an essential first step in designing an effective and sustainable global grant project. See [Community Assessment Tools](#) for full instructions and helpful tips.

This form will help you report the results of your community assessment, and it's required when you apply for any humanitarian or vocational training team grant. Complete a separate form for each beneficiary community (e.g., school, health care system, or village), using information that is both current and specific to each community. Remember, you can't use global grant funds to cover the cost of doing an assessment, but you can use district grant funds.

Beneficiary community or institution

AFIGYA KWABRE NORTH DISTRICT, ASUNAFO SOUTH DISTRICT & DORMAA CENTRAL MUNICIPAL

Groups in the community that would receive a clear, direct, and immediate benefit from the project

- a. School children
- b. The people living and around Abonsrakro, Mfrekrom and Esaase

- j. Mr Abraham Duku ((Community Development Committee Member)
- k. Mr Korsah Tahiru (Community Development Committee Member)
- l. Hon Julian Afriyie (Assemly Member, Afigyaase Electoral Area)
- m. Queen mother of Denase

List the community needs you identified that your project would address.

1. Access to clean water
2. Provison of toilet facility to prevent open defecation
3. Improvement of community hygiene
4. Prevent waterborne diseases by providing clean water

List any needs you identified that your project would not address.

1. Good road network
2. ICT Centre
3. Electricity
4. Youth employment
5. Farms inputs for farmers
6. Micro loans for women in commerce
7. Sanitary pad for girls
8. Access to health care

List the community's assets, or strengths.

1. Existing Human resource
2. Fertile and large land
3. Natural minerals
- 4.

Considering the needs and assets you listed, explain how you determined the project's primary goal.

The primary goal of of this project is to provide clean water and toilet facilities to deprived communities.

How would your project's activities accomplish this goal?

- a. By providing mechanized boreholes in these communities
 - b. By constructing water closets toilets in these in these deprived communities

What challenges have prevented the community from accomplishing the project's goals?

- a. Lack of funds by the community
 - b. Lack of political will from elected officials
 - c. Inadequate budgetary allocation from central government
 - d. Lack of funds on the part of the traditional rullers.
 - e. Lack of local and international connection for funding.

How is the community addressing these challenges now?

- a. The community is addreaing these challenges through advocacy and trying to secure government, civil societ organisations and nongovernmental organisations to come to their aid within and outside the c ountry.
 - b. By involving the local media to articulate their needs for public attention

Why are the project's activities the best way to meet this community need?

The project activities have been grouped into two:

- a. mechanized borehole drilling is the best way to provide clean water
 - b. Construction of WC toilet is the best way to provide toilet, stop open defacation and improve community hygiene
